## **ON THE COVER:**

Steve Preston posted a prediction for the occultation of a 10.8-magnitude star in Orion, about 3° from Betelgeuse, by the asteroid (238) Hypatia, which had an expected diameter of 148 km. The predicted path passed over the San Francisco Bay area, and that turned out to be quite accurate, with only a small shift towards the north, enough to leave Richard Nolthenius, observing visually from the coast northwest of Santa Cruz, to have a miss. But farther north, three other observers video recorded the occultation from their homes, and they were fortuitously located to define three well-spaced chords across the asteroid to accurately measure its shape and location relative to the star, as shown in the figure. The dashed lines show the axes of the fitted ellipse, produced by Dave Herald's WinOccult program. This demonstrates the good results that can be obtained by a few dedicated observers with a relatively faint star; a bright star and/or many observers are not always necessary to obtain solid useful observations. – David Dunham

### **Publication Date for this issue: July 2005**

Please note: The date shown on the cover is for subscription purposes only and does not reflect the actual publication date.

**The next issue, Volume 12, Number 2 will be published in August**

## What to Send to Whom

Send new and renewal memberships and subscriptions, back issue requests, address changes, email address changes, graze prediction requests, reimbursement requests, special requests, and other IOTA business, but not observation reports, to:

Art Lucas  
Secretary & Treasurer  
5403 Bluebird Trail  
Stillwater, OK 74074 USA  
Email: **business@occultations.org**

Send *ON* articles and editorial matters (in electronic form) to:

John A. Graves, Editor for *Occultation Newsletter*,  
3120 Hydes Ferry Road  
Nashville, TN 37218-3133 USA  
Email: **editor@occultations.org**

Send Lunar Grazing Occultation reports to:

Dr. Mitsuru Sôma  
V.P. for Grazing Occultation Services  
National Astronomical Observatory  
Osawa-2, Mitaka-shi  
Tokyo 181-8588, Japan  
Email: **SomaMT@cc.nao.ac.jp**

Send interesting stories of lunar grazing occultations to:

Richard P. Wilds  
2541 SW Beverly Court  
Topeka, Kansas 66611-1114 USA  
Email: **astromaster@cox.net**

Send Total Occultation and copies of Lunar Grazing Occultation reports to:

International Lunar Occultation Centre (ILOC)  
Geodesy and Geophysics Division  
Hydrographic Department  
Tsukiji-5, Chuo-ku  
Tokyo, 104-0045 Japan  
Email: **iloc@jodc.go.jp**

Send Asteroidal Appulse and Asteroidal Occultation reports to:

Jan Manek  
IOTA V.P. for Planetary Occultation Services  
Stefanik Observatory  
Petrin 205  
118 46 Praha 1  
Czech Republic  
Email: **JManek@mbox.vol.cz**

Send observations of occultations that indicate stellar duplicity to:

Henk Bulder  
Noorderstraat 10E  
NL-9524 PD Buinerveen  
The Netherlands  
Email: **h.j.bulder@freeler.nl**

## Membership and Subscription Information

All payments made to IOTA must be in United States funds and drawn on a US bank, or by credit card charge to VISA or MasterCard. If you use VISA or MasterCard, include your account number, expiration date, and signature. (Do not send credit card information through e-mail. It is neither secure nor safe to do so.) Make all payments to **IOTA** and send them to the Secretary & Treasurer at the address on the left. Memberships and subscriptions may be made for one or two years, only.

*Occultation Newsletter* subscriptions (1 year = 4 issues) are US\$20.00 per year for USA, Canada, and Mexico; and US\$25.00 per year for all others. Single issues, including back issues, are 1/4 of the subscription price.

Memberships include the *Occultation Newsletter* and annual predictions and supplements. Memberships are US\$30.00 per year for USA, Canada, and Mexico; and US\$35.00 per year for all others. Observers from Europe and the British Isles should join the European Service (IOTA/ES). See the inside back cover for more information.

## IOTA Publications

Although the following are included in membership, nonmembers will be charged for:

Local Circumstances for Appulses of Solar System Objects with Stars predictions US\$1.00  
Graze Limit and Profile predictions US\$1.50 per graze.  
Papers explaining the use of the above predictions US\$2.50  
IOTA Observer's Manual US\$5.00

Asteroidal Occultation Supplements will be available for US\$2.50 from the following regional coordinators:

**South America**--Orlando A. Naranjo; Universidad de los Andes; Dept. de Fisica; Mérida, Venezuela  
**Europe**--Roland Boninsegna; Rue de Mariembourg, 33; B-6381 DOURBES; Belgium or IOTA/ES (see inside back cover)

**Southern Africa**--Brain Fraser - fraserb@intekom.co.za  
**Australia and New Zealand**--Graham Blow; P.O. Box 2241; Wellington, New Zealand

**Japan**--Toshiro Hirose; 1-13 Shimomaruko 1-chome; Ota-ku, Tokyo 146, Japan

**All other areas**--Jan Manek; (see address at left)

## ON Publication Information

*Occultation Newsletter* (ISSN 0737-6766) is published quarterly by the International Occultation Timing Association, Inc. (IOTA), 5403 Bluebird Trail, Stillwater, OK 74074, USA. IOTA is a tax-exempt organization under sections 501(c)(3) and 509(a)(2) of the Internal Revenue Code USA, and is incorporated in the state of Texas. First class postage paid at Stillwater, OK, USA. Printing by Tony Murray of Georgetown, GA, USA. Circulation: 400

**The Largest Members Of Our Solar System - 2005**

Hal Povenmire

Most of us know the major members of the solar system~ and we know the largest half dozen objects. However~ with the discovery of new objects and more precise measurements~ the order of large objects becomes more difficult after the first dozen. The order has also changed rather dramatically in the last few years. This order is according to diameter rather than mass. Asteroids are indicated by their number in front of their name. A moon or satellite of a planet is indicated by the initial of the planet followed by the number of the moon. A general rule is that the objects farther from the Sun have a lower specific gravity. The number of large transneptunian objects being found will certainly make changes in the lower end of this list. The list is comprised from many sources~ so there will be discrepancies~ but it is still worth some study. The smaller objects usually do not have spherical shapes~ so the diameter listed is an average or estimate. The diameters are expressed in miles and kilometers.

		Miles	Kilometers	+/- (Km)
1.	Sun	864,988.8	1,392,000	250

## IOTA's Mission

The International Occultation Timing Association, Inc. was established to encourage and facilitate the observation of occultations and eclipses. It provides predictions for grazing occultations of stars by the Moon and predictions for occultations of stars by asteroids and planets, information on observing equipment and techniques, and reports to the members of observations made.

---

## The Offices and Officers of IOTA

President .....	David Dunham, Dunham@erols.com
Executive Vice-President .....	Paul Maley , pdmaley@yahoo.com
Executive Secretary .....	Richard Nugent, RNugent@wt.net
Secretary & Treasurer .....	Art Lucas, ALucas0217@aol.com
Vice President for Grazing Occultation Services .....	Dr. Mitsuru Soma, SomaMT@cc.nao.ac.jp
Vice President for Planetary Occultation Services .....	Jan Manek, Jmanek@mbox.vol.cz
Vice President for Lunar Occultation Services .....	Walt Robinson, robinson@lunar-occultations.com
Editor for <i>Occultation Newsletter</i> .....	John A Graves, editor@occultations.org
IOTA/ES President .....	Hans-Joachim Bode, president@IOTA-ES.de
IOTA/ES Secretary .....	Eberhard H.R. Bredner, secretary@IOTA-ES.de
IOTA/ES Treasurer .....	Brigitte Thome, treasurer@IOTA-ES.de
IOTA/ES Research & Development .....	Wolfgang Beisker, Beisker@gsf.de
IOTA/ES Public Relations .....	Eberheard Riedel, E_Riedel@msn.com

---

## IOTA European Section (IOTA·ES)

Observers from Europe and the British Isles should join IOTA/ES, sending a Eurocheck for EURO 25,00 (bank-transfer-costs included) to the account IOTA/ES; Bartold-Knaust-Strasse 8; D-30459 Hannover, Germany; Postgiro Hannover 555 829-303; bank code number (Bankleitzahl) 250 100 30. Sending EURO 20 EU-members must use the IBAN- and BIC-code as additional bank-address (IBAN: DE97 2501 0030 0555 8293 03, BIC: PBNKDEFF). German members should give IOTA/ES an "authorization for collection" or "Einzugs-Ermaechtigung" to their bank account. Please contact the Secretary for a blank form. Full membership in IOTA/ES includes one supplement for European observers (total and grazing occultations) and minor planet occultation data, including last-minute predictions; when available. The addresses for IOTA/ES are:

Eberhard H. R. Bredner  
IOTA/ES Secretary  
Ginsterweg 14  
D-59229 Ahlen 4 (Dolberg)  
Germany

Phone: 49-2388-3658 (in Germany 0-2388-3658)

Hans-Joachim Bode  
IOTA/ES President  
Bartold-Knaust-Str. 8  
D-30459 Hannover 91  
Germany

Phone: 49-511-424696 (in Germany 0-511-424696)  
Fax: 49-511-233112 (in Germany 0-511-233112)

## IOTA on the World Wide Web

(IOTA maintains the following web sites for your information and rapid notification of events.)

### **IOTA Member Site**

<http://www.occultations.org>

This site contains information about the organization known as IOTA and provides information about joining IOTA and IOTA/ES, topics related to the *Occultation Newsletter*, and information about the membership--including the membership directory.

### **IOTA Lunar Occultations, Eclipses, and Asteroidal and Planetary Occultations Site**

<http://www.lunar-occultations.com>

This site contains information on lunar occultations, eclipses, and asteroidal and planetary occultations and the latest information on upcoming events. It also includes information explaining what occultations are and how to report them.
